

Individual Submission (Page 3 and 4 only)

Group #8 :

Lab 2.1 Answer

```
#include <iostream>
using namespace std;

int powerOfTwo(int n , int m = -1){
    // Check if m is uninitialized (-1) to set it to n for the first call

    if(m == -1){
        m = n;
    }

    if(m == 1){ // Base case: If m reaches 1, return n (as n^2 is n added n times)
        return n;
    }
    return n + powerOfTwo(n, m-1); // Recursive call
}

int main(){
    int n;

    cout << "Enter a number: ";
    cin >> n;
    cout << "Poweroftwo("<<n<<")"<<"should return"<<powerOfTwo(n); //
Output the result of powerOfTwo function

return 0;
}
```

Lab 2.2 Answer

```
#include <iostream>
using namespace std;

int sumUpTo(int n){

    //base case
    if(n == 1){
        return 1;
    }

    return n + sumUpTo(n-1); //recursive call
}

int main(){
    int n;

    cout << "Enter a number to sum up: ";
    cin >> n;
    cout << sumUpTo(n); //output

    return 0;
}
```

Total Score: /15 (Each student rates themselves and each of their peers individually)
 Submission: Each student submits an individual assessment of their own contributions and those of their group members based on contributions and teamwork.
